

Backing Up Data in Windows 7

Migrating to Windows 10 should be a stress free process. There are a few things to keep in mind, and we have attempted to address those details with some screen shots (below).

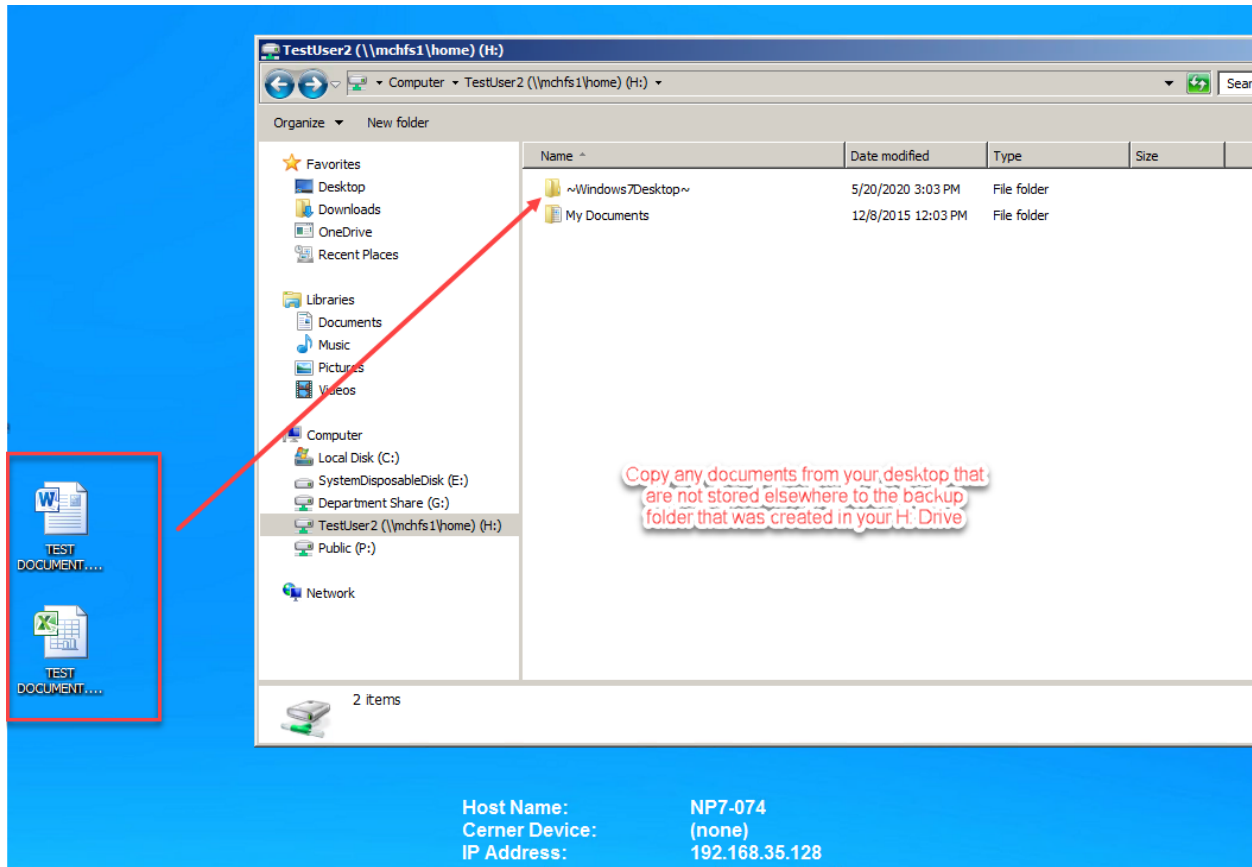

Not all settings, passwords, favorites, shortcuts, documents will automatically carry over.

Because of this you may want to back-up some of this up.

Recommended process for retaining personal data:

Examples of personal data to backup (documents,spreadsheets,shortcuts)

As long as you have moved these items to a folder in your home (H:) drive, you should be in good standing to switch to Windows 10.

Exporting Internet Explorer Favorites (Export and save to the folder on your H: Drive)
