

Visitor Restrictions

Clinic

One parent with child during visit, or one adult as caregiver for a patient as needed.

Please, no outside food or drink allowed in the clinic.

Emergency Room

- NO VISITORS
- One (1) adult with a child

Surgery

- One (1) adult per surgery patient

Inpatient

- NO VISITORS with COVID patients
- One (1) visitor per non-COVID patient

Visitor must enter through main entrance to be screened, walk directly to the patient's room, stay in the patient's room until ready to leave, then take the most direct route to exit the hospital.

- **Hospice patients - Limit to four (4) family members at a time.**

Cohort family members. Visitors must enter through the main entrance to be screened, walk directly to the patient's room, stay in the patient's room until ready to leave, then take the most direct route to exit the hospital. Bringing children in to visit puts them at greater risk for COVID-19, however, we will not restrict children from visiting.
